- Swimming Pool Management
- Entertainment Venues
- Educational Institutions
- Construction
- Gyms & Rehabilitation Centres
- Retail & Shopping Malls
- Corporate Offices
- Manufacturing Units
- Event Management Companies
- Defence & Military
- Coffee Shops & Cafes
- Automobile Dealerships
- Public Transport Systems
- Airport and Lounges
- Hotels & Hospitality
- Restaurants & Food Outlets
- Pharmaceutical Industry
- Environmental & Waste Management
- Senior Care & Assisted Living Facilities
- Oil Gas Industry

POPULAR BUSINESS AUTOMATIONS, GENERATIVE AI AND ROBOTICS PROJECTS

- Automate Sales and Profit Growth
- Automate your Calendar
- Automate your Ecommerce business
- Automate Google products
- Automate facebook leads to Whatsapp chats
- Microsoft Dynamics CRM Automation
- Intelligent Document Processing
- Object Character Recognition
- Shipping Automation
- Automate email leads to Whatsapp
- Auto-extract leads from comments on Facebook ads
- Smart Workout Plan using AI
- Smart Nutrition Plan using AI
- Smart Timetable using AI
- Smart Work Schedule using AI
- AI enabled Corporate Decision Making
- AI enabled Corporate Decision Making
- Intelligent Contract Management using AI and IDP
- Candidate Profiling
- Supplier Evaluation
- Invoice Validation Automation
- Patent Analysis Automation
- Patent Portfolio Management
- Compliance Analysis
- Insurance Claims Processing
- Claims Fraud Detection Automation
- KYC Process Automation
- Operations Automation
- Operations enhancement using AI, Robotics and Automation
- Industry specific RAA solutions with the most suited vendors

CLIENTS

We have supported more than 200 clients, some of these are as below:

- **Bharat Forge Ltd - Pune**
- **Hindustan Petroleum Corporation Limited**
- **Hindustan Facilities**
- **Sila Facilities**
- **Emcure Pharmaceuticals**
- **Ajanta Pharma**
- **GlaxoSmith Kline**
- **JW Marriott Hotels**
- **Taj Group of Hotels**
- **Sahney Kirkwood**
- **Sharyans Resources Ltd**
- **Vissco Rehabilitation**

AWARDS AND RECOGNITIONS

- Recognition from PMO, India for contribution to Swacch Bharat Movement
- Founder – Mumbai Robotics Club
- CEO of the Year, 2016 – CEO Magazine
- Best Indigenously Designed Product – Clean India Magazine
- TAIT Member
- Most Valueable Partner – E&Y for Designing Roboseum Ahmedabad
- TR35 Designer of the Year Award – 2012
- CEO of the Year – CIO Magazine 2016
- Primary Contributor – Robot Museum, Science City, Ahmedabad, India
- Exclusive Robotic Partner – Marriott Hotels,
- Winner of Best Robotic Cleaning System – Clean India Show
- Official Robotics Partner – BMC – Dustbin Robot
- First Company to Launch Robotic Sludge Cleaning System – Reliance Dahej

CERTIFICATES

- B.Eng Mechatronics and Robotics, Univeristy of Leeds, UK
- M.Sc Artifical Intelligence and IoT, Massachusetts Institute of Technology, USA
- International Marketing and Corporate Strategic Management, Harvard Business School, USA
- Implementing RPA in your Organization – Udemy
- How to Become a Digital Transformation Consultant- Online Course - Udemy

DELIVERABLES

- We will suggest and get you the most suited Automation, AI, Robotics and IIoT solutions as per your requirements and understanding your operations.
- We will negotiate the best price and schedule demo with the manufacturer/OEM/developer/vendor
- We will train/hire manpower, if needed, to successfully implement and maintain said systems
- We will also deploy our existing manpower and resources to ensure successful implementation of said projects
- We will ensure correct resources are allocated at an additional cost to maintain the systems for after sales technical support throughout the life of the product/service.

We are not software developers, we are implementer and integrators of available automation, AI and Robotics technologies. You are guaranteed to have the best rates compared to any other vendor direct rates.

We look forward to work closely with you and your team, to grow your company in sales, profits and efficiency using our years of knowledge, expertise and experience in corporate AI, Automation, Robotics and IIoT technologies made available at the most suitable prices and genuine vendor connections.

We only undertake complex technical projects where we are certain to successfully implement and maintain said projects throughout its life of active operations.
